Nebraska Public Service Commission

Broadband Survey

Released: July 2006

INTRODUCTION

A. Statutory Authority

Section 706 of the federal Telecommunications Act of 1996 (the Act) established a national goal that the Federal Communications Commission (FCC) and each state commission with regulatory jurisdiction over telecommunications services shall encourage the deployment of advanced telecommunications capability to all Americans on a reasonable and timely basis.¹ This section of the Act also requires the FCC to report on the availability of advanced telecommunications capability to all Americans. Consistent with this provision the FCC tracks data on broadband deployment in the United States and reports its findings to Congress on a regular basis. The most recent FCC report is its Fourth Report to Congress issued on September 9, 2004.²

Following the passage of the Act, the Nebraska Legislature gave the Nebraska Public Service Commission (Commission) the authority to implement the provisions of the Act in *Neb. Rev. Stat. § 86-122 (2004 Supp.)*.³ This authority is to be broadly construed in a manner consistent with the Act.⁴ Consistent with *Neb. Rev. Stat. § 86-323*, the Commission is also empowered to promote access to advanced telecommunications and information services in all regions of the state. The Commission has taken steps to gather more detailed and current information on the availability of broadband services in Nebraska.

B. Background

In early 2000, the Commission collaborated with the Iowa Utilities Board to co-host one of the field hearings for the regional Section 706 Federal-State Joint Conference on Advanced Services. The hearing was held in South Sioux City. Officials participating in the hearing included members of the Nebraska Public Service Commission, FCC Chairman William Kennard, Senator Bob Kerrey and commissioners from other states. At the field hearing, various panels gave testimony about the deployment of advanced services. Hearing participants also toured rural areas in the region to observe existing efforts to deploy advanced services.

In 2002, the Commission opened an investigation to monitor broadband deployment in Nebraska. The Commission released its initial broadband report and order in 2003, finding that based on the Nebraska Information Network (NIN) study reported to the Commission by the Nebraska Telecommunications Association (NTA), 82 percent of Nebraska exchanges had broadband infrastructure in place. In the study previously provided to the Commission for its 2003 report, of 597 communities counted, 41 percent of the communities listed had DSL availability and 31 percent of the communities listed had cable modem availability.

¹ 47 U.S.C. § 706.

² *In the Matter of The Availability of Advanced Telecommunications Services in the United States*, FCC Docket No. 04-208, Fourth Report to Congress (September 9, 2004) (“Fourth Report”).

³ Previously codified in *Neb. Rev. Stat. § 75-109*. In 2002, the Commission’s statutes regarding telecommunications regulation were re-codified in Chapter 86.

⁴ *Id.*

On November 3, 2004, the Commission issued an order in NUSF-26 finding that the policy of NUSF high-cost program support should continue to evolve as new technologies are deployed.⁵ The emphasis, the Commission found, should shift from the type of service offered to supporting comparable access, focusing on the capability of the underlying facilities. The Commission found a subsequent proceeding should be opened to adopt standards for deployment of advanced services and to determine whether NUSF high cost program support is needed to ensure access to these services.⁶

On January 18, 2006, the Commission issued an order to update the broadband information previously collected. The Commission's order is attached as **Appendix A**. The Commission required telecommunications carriers eligible to receive universal service funding to respond to the data request. Responses were solicited from other carriers but there was no requirement for them to respond.⁷ Accordingly, the Commission considers the attachments as providing baseline or floor numbers as to actual broadband deployment. The Commission is aware that there are other broadband providers in the state that did not respond to the survey for various reasons.

C. Description of Information Solicited and Provided

The FCC defines "advanced services" to mean services and facilities producing 200 kbps upstream and downstream transmission speed or greater. For the purposes of the Commission's broadband investigation, the Commission adopted this definition for what is considered advanced service capability or "broadband". In today's market however, broadband transmission speeds available are often much higher than the 200 kilobits per second (kbps) threshold. As the appendices to this report indicate, broadband services can be delivered through cable technologies, copper and fiber facilities, as well as wireless and satellite technology. In this report access at any speed has been classified as "Internet Access."

The Commission sought information on broadband and high-capacity transmission services by county and city. Carriers were asked to specify the speeds at which each service was delivered, the type of transmission facility, the price, the number of potential households in each area that can be served, and the number of subscribers in each area. Survey data contained in this report was filed by carriers during the January 2006 through March 2006 comment period. The information included in the attachments is based wholly on the survey responses provided by the carriers.

Much of the data is considered confidential and proprietary by the carriers and the Commission. Accordingly, the information included in the attachments is reported on an aggregated basis and not broken out by specific company to comply with confidentiality requirements.

⁵ See Application No. NUSF-26, *In the Matter of the Nebraska Public Service Commission, on its own motion, seeking to establish a long-term universal service funding mechanism*, Findings and Conclusions, ¶ 34 (November 3, 2004).

⁶ See *id.*, ¶ 85.

⁷ **Appendix B** shows the companies responding to the survey.

The Commission has directed staff to continue to seek information on the status of broadband deployment and intends to continue to update this information on at least an annual basis. The Commission will affirmatively pursue information on new technologies, such as the satellite service known as Wild Blue.

D. Summary of Information Reported

Appendices C, D, and E show the information reported to the Commission in responses to its survey. **Table 1** below provides an overview of the reported data at a county level. A county was considered to have broadband access if one or more incorporated places within the county had one or more broadband service providers. The table also shows the total number of counties in which the four different technologies were available. **Table 2** provides a similar report of access at the incorporated place level.⁸

The attached appendices show the following information:

- **Appendix C** shows the of service offerings by county.
- **Appendix D** shows the number of service offerings by incorporated place.
- **Appendix E** identifies service providers and shows the types of service offerings by incorporated place.

Appendix D requires some explanation. It should not be interpreted to suggest that residents outside incorporated places lack access to broadband service. The survey shows there are residents outside incorporated places that do have access to broadband services.⁹ The responses to the survey, however, did not micro-analyze the services available outside incorporated places. In other words, at this time there is not sufficient data available to show what specific percentage of Nebraska residents living outside incorporated places have access to broadband.

The Commission has directed staff to continue more specific and granular investigation of broadband availability in Nebraska both within incorporated places and outside incorporated places. This will enable the Commission to better determine the extent of broadband availability to the 384,382 residents living in rural areas outside the incorporated places.

⁸ In compiling the survey responses, Commission staff applied the information to “incorporated places,” as defined in a Nebraska Department of Economic Development’s (DED) table entitled *Population of Nebraska Incorporated Places*. See <http://info.neded.org/stathand/bsect5c.htm>. These incorporated places approximately correspond with the cities for which survey responders provided information. The DED table lists 535 incorporated places and their population based on Census estimates from 2004.

⁹ Survey responses from the following carriers indicated service to all subscribers throughout the carrier’s exchanges, which include areas outside incorporated places: Arlington Telephone, Blair Telephone, BWTelcom, Clarks Telecom, Diller Telephone Company, Eastern Nebraska Telephone, Glenwood Telephone, Hamilton.net, Hartington Telecommunications Company, Inc., Hershey Cooperative Telephone, Hooper Telephone Company, Keystone-Arthur, Mainstay Communications, Mobius Communications (Hemingford), Northeast Nebraska Telephone Company, Pierce Telephone Company, Inc., Rock County Telephone, Stanton Telecom, Inc.

Table 1

Summary of Data at a County Level			
		Number of Counties	% of Total Counties
Counties with Internet Access		93	100%
Counties with Broadband Access (= 200 kbps)		93	100%
	Service Type		
	Cable Modem	50	53.8%
	DSL	90	96.8%
	Satellite	43	46.2%
	Wireless	59	63.4%

BEFORE THE NEBRASKA PUBLIC SERVICE COMMISSION

In the Matter of the Nebraska) Application No. C-2831/NUSF-51/
Public Service Commission, on) PI-67
its own motion, seeking to)
investigate telecommunications) REVISED ORDER SEEKING BROADBAND
infrastructure development in) INFORMATION
Nebraska.)
Entered: January 18, 2006

BY THE COMMISSION:

O P I N I O N A N D F I N D I N G S

The Nebraska Public Service Commission (Commission) initiated this docket on its own motion on November 5, 2002, to investigate telecommunications infrastructure development in Nebraska. Specifically, the Commission surveyed carriers on the pace of broadband deployment. In its December 20, 2005, order, the Commission sought to broaden its initial inquiry and sought updated information on the development of broadband technology. The Commission received questions regarding the initial comments. The Commission realized that some of the questions may not be as clearly stated as intended. Accordingly, the Commission suspended the comment cycle so that it could clarify its questions regarding the information sought.

Attached to this order and incorporated herewith is a broadband and high-capacity survey with instructions. Respondents should complete the attached survey which is also posted on the Commission's website for the convenience of the providers in lieu of answering the initial questions posted in the Commission's December 20, 2005, order. Carriers should utilize the Commission's website at www.psc.state.ne.us to download the Microsoft Excel template worksheet. Responding parties should add data to the relevant columns in the worksheet, then save the worksheet with a filename which includes the responding party's name and file the worksheet electronically with the Commission. Respondents may supplement the worksheet with any relevant data.

All eligible telecommunications carriers (ETC) are required to complete the survey and file the requested information with the Commission by February 28, 2006. All other broadband service providers are strongly encouraged to complete the survey on or before the February 28, 2006, deadline. Any responding party, including those mandatory responders, may file individually or collectively with other parties. Respondents wishing to keep their data confidential should file a request for confidential treatment with the Commission concurrent with

Application No. C-2831/NUSF-51/PI-67

Page 2

their response. Any such request should include the specific type of data the party wishes to be treated as confidential.

Persons filing comments should file five (5) paper copies and one (1) electronic copy of their comments. Confidential information should be clearly marked.

O R D E R

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that the above-captioned investigation be revised as provided herein.

IT IS FURTHER ORDERED that all eligible telecommunications carriers (ETCs) are required to complete the survey and electronically file survey responses on or before February 28, 2006.

IT IS FURTHER ORDERED that all other interested parties complete the survey and electronically file survey responses on or before February 28, 2006.

MADE AND ENTERED at Lincoln, Nebraska this 18th day of January, 2006.

**NEBRASKA PUBLIC SERVICE COMMISSION
BROADBAND AND HIGH-CAPACITY SURVEY
BROADBAND - SECTION 1 - INSTRUCTIONS AND DEFINITIONS**

<u>Column</u>	<u>Instruction / Definition</u>
County	County where broadband service is available.
City	City where broadband service is available. For areas served outside of the city limits, those subscribers should be assigned to the city or town from which they receive or could receive broadband service.
Service Provider	The name of the broadband service provider.
Service	Name/Type of broadband access provided (i.e., DSL).
Rate: Non-Recurring	Non-Recurring costs billed to the customer (installation).
Rate: Recurring	Recurring costs billed to the customer – including the monthly recurring charge, rental charges for equipment, etc.
Rate: Term	Term of contract, if applicable. If the broadband service provider has different rates based upon length of contract, list all applicable.
Speed: Up (kbps)	Speed for upload in kbps.
Speed: Down (kbps)	Speed for download in kbps.
Type: Cable Modem	Check box for yes.
Type: DSL	Check box for yes.
Type: Satellite	Check box for yes.
Type: Wireless	Check box for yes.
Type: Other	Check box for yes. Please provide a footnote detailing information regarding the service provided.
Potential Subscriber Households	Number of ALL potential subscriber households in the reporting area.
Potential Broadband Households	Number of households where broadband service is currently available.
Current Broadband Households	Current number of households subscribing to broadband service.

BROADBAND - SECTION 1

[illegible]

**NEBRASKA PUBLIC SERVICE COMMISSION
BROADBAND AND HIGH-CAPACITY SURVEY
HIGH-CAPACITY - SECTION 2 - INSTRUCTIONS AND DEFINITIONS**

<u>Column</u>	<u>Instruction / Definition</u>
County	County where broadband service is available.
City	City where broadband service is available. For areas served outside of the city limits, those subscribers should be assigned to the city or town from which they receive or could receive broadband service.
Service Provider	The name of the broadband service provider.
Fiber: Served By	Check box for yes if serving plant is fiber.
Fiber: Subscribers	Number of current subscribers to DS-1 or higher speed service provided over fiber.
DS-1: Available	Check box for yes.
DS-1: Subscribers	Number of current subscribers.
DS-3: Available	Check box for yes.
DS-3: Subscribers	Number of current subscribers.
Other: Capacity	Speed of High Capacity connection available greater than DS-3. List multiple services on separate rows.
Other: Subscribers	Number of current subscribers.
